PUTTING YOU IN CONTROL

Diverse industry expertise combined with cutting-edge technological innovation mean Pegler Yorkshire's Control solutions help you overcome unique challenges and meet the highest standards in both performance and system aesthetics.

PERFORMANCE WITH PRECISION

Pegler Yorkshire's **Control** products enable you to balance precision flow control, energy efficiency and comfort through innovative products and systems that ensure building performance criteria are met and the resulting installation is easy, efficient and economical to operate.

Our comprehensive **Francis Pegler** and **Performa** product ranges offer proven energy saving solutions, exceptional accuracy and optimised system performance – so, whatever your project or challenge, you can be sure you'll always be in control.

GLOBAL EXPERIENCE, COMBINED EXPERTISE

With over 100 years of manufacturing and innovation combined with extensive industry knowledge and worldwide market experience, Pegler Yorkshire offers the most advanced and complete **Connect & Control** systems on a global scale.

As one of Britain's largest and most respected manufacturers and suppliers of products for the plumbing and heating industries, Pegler Yorkshire is confident we can provide you with all the controls, connections and support your project requires.

Pegler Yorkshire

A HISTORY AND HERITAGE OF MARKET LEADING DESIGN

One of the company founders, Francis Pegler, was renowned for his innovative and practical designs for plumbing fittings and taps. Since he died in 1957 the company has committed to the development of new products employing industry leading designers.

The current New Product Development team is both led by, and contains a number of tertiary educated industrial designers, with global experience in product design.

The company's long-term success in taps can be attributed to an ethos that ensures products are designed to ideally suit the needs of the UK market. Pegler have introduced many of the UK's best selling taps ranges over the years and consistently maintained one of the markets leading positions in the UK taps market.

Pegler Yorkshire currently offer a broad range of products covering water saving taps, designer bathroom taps, designer kitchen taps, specialist commercial taps, and showers.

Pegler Yorkshire has been manufacturing taps for over 100 years, with its Francis Pegler and Performa brands leading the way in product innovation, quality and performance. The Francis Pegler range is renowned for its luxury taps for residential installations, whilst the Performa range focuses on specialist taps for the healthcare and commercial sectors.

PEGLER YORKSHIRE HISTORY

- PRE 1900** BEGUN THE MANUFACTURE OF TAPS IN DONCASTER
- 1920'S** ENTERED EXPORT MARKETS
- 1930'S** THE FIRST RISING SPINDLE TAP DEVELOPED

- 1970'S** DESIGNED THE FIRST BRITISH STANDARD 5412 RANGES
- 1980'S** INTRODUCTION OF THE MARKET LEADING DANUM RANGE
- 1990'S** DESIGN COLLABORATION WITH PORSCHE FOR LUXURY TAP RANGES
- POST 2000** DEVELOPED THE FIRST ANTIMICROBIAL HOSPITAL TAPS IN THE UK MARKET

GUARANTEES

CONNECT + CONTROL

5
YEAR

5 & 10 year guarantee

10
YEAR

Terms and Conditions

Products are subject to a 5 or 10 year guarantee that is between Pegler Yorkshire and the final purchaser of the product.

The guarantee is subject to proof of purchase being supplied.

This guarantee does not affect any statutory rights the consumer may have in law.

The guarantee covers manufacturing or material defects and does not cover parts subject to normal wear and tear.

Finishes other than chrome are covered for a period of 3 years only and the guarantee on the finish is subject to the cleaning instructions being followed.

The guarantee is not applicable where the product is fitted contrary to the conditions in the fitting instructions.

Abusive behaviour and accidental damage to the product are not covered by this guarantee.

The extent of this liability is limited to the cost of the replacement of the defective item and not to fitting or consequential damages.

Watertight guarantee

When you purchase or specify any Performa product, you are acquiring far more than a means of doing a job well. You are investing in unrivalled quality, service, value and reliability that has been over 100 years in the making. And that is why only Pegler Yorkshire gives you the added assurance of the unique watertight guarantee of quality.

Pegler Yorkshire

DESIGN, APPROVALS AND STANDARDS

Pegler Yorkshire are dedicated to designing, developing and manufacturing products of the highest quality. We are members of numerous standards committees and take an active part in their development.

Our products, where applicable, comply with the relevant British, European and International standards. Whatever the latest developments, we guarantee that our products will always meet the latest and highest standards. For more information visit www.pegler-yorkshire.co.uk

Manufacturing quality and approvals

Pegler Yorkshire is totally committed to Quality and prides itself on being one of the first manufacturers in the UK to gain BS5750 certification for Quality Assurance and has subsequently gained BS EN ISO 9001:2000. Products are designed to meet and pass appropriate product specification and performance standards (e.g. British Standards).

The Pegler Yorkshire Quality Management System is in accordance with the requirements of ISO9001:2008.

Continual improvement is a key ingredient of the standard. Maintaining a policy of continual product development, Pegler Yorkshire Group Ltd. reserve the right to change specifications, design and materials of products listed on this web site without prior notice. It is therefore, mandatory that all aspects of the business strive for improvement year on year to ensure that customer satisfaction is increased with a subsequent improvement in business performance.

Approvals

BS 1010 and BS 5412 taps have been granted approval by BSI for products complying with the required British Standard.

Many products have been certified by WRAS and are audited periodically. Products not claiming WRAS are manufactured using WRAS materials.

Quality

By using only the very best materials currently available, advanced manufacturing processes and applying the most stringent quality control standards, Pegler Yorkshire consistently delivers outstanding product reliability. This in turn means the assurance of a long working life and unbeatable value for money.

CONNECT  CONTROL

It's Pegler Yorkshire's policy to provide a range of products and services which meet, or exceed, the requirements of our customers in respect of quality, cost and delivery.

Standards

- + Model Engineering Standard DO8 Thermostatic Mixing Valves (Healthcare Premises) 1997 for TMV3. This standard is regulated by WRAS under the BuildCert scheme. This is of high priority where applicable.

- + Product to be designed to meet the dimensional requirements of BS 5412 and EN 200, this includes areas such as air gaps, spout lengths, tail bores, flow rates etc., unless otherwise stated.

Products also designed to take into consideration the standards below.

- + HTM 04 The control of legionella, hygiene, "safe" drinking water systems 2006.
- + HTM 2027 'Hot and Cold Water Supply, Storage and Mains Services'.
- + Function DDA (Disability Discrimination Act) 1995.
- + BS 8300 Design of buildings and their approaches to meet the needs of disabled people. Code of practice 2001.
- + BS 6465 Sanitary Installation. Code of practice for scale of provision, selection and installation of sanitary applications: 1995.
- + BS 7942 Thermostatic mixing valves for use in care establishments.

ISO standard

It is the policy of Pegler Yorkshire to provide a range of products and services which meet, or exceed, the requirements of our customers in respect of quality, cost and delivery.

This is achieved through the continuous improvement of our Quality Management System in line with the requirements of BS EN ISO9001: 2000.

CE standard

The CE mark on a product is our declaration that the product conforms to all applicable EU directives and that appropriate conformity assessment procedures have been completed.

Beama scheme

Beama is the representative for UK companies within European standards activities. It plays a key part in promoting the safety of hot water systems. As part of the Beama membership we offer a comprehensive range of thermostatic products approved under the BuildCert scheme.

TMV2 Scheme – certifies Type 2 Thermostatic Mixing Valves for the domestic market. For use in hot water systems in domestic premises.

TMV3 Scheme – certifies Type 3 Thermostatic Mixing Valves manufactured to meet the highest specification required by the NHS Estates DO8 standard for Mixing Valves within healthcare premises in the United Kingdom.

Pegler Yorkshire

WATER SAVING

Pegler Yorkshire are currently engaged in a range of initiatives aimed at improving knowledge on water efficiency to encourage consumers to use water wisely.

It is estimated that over the next 25 years water challenges will increase significantly as the resource comes under additional pressure from population growth, industrial processes, agriculture, transport systems and consumer desire for grander water products.

In the UK the Bathroom Manufacturers Association (BMA) has set up a voluntary industry scheme to label products based on water usage. The Water Label will allow consumers to see the amount of water used per flush cycle, and in taps and showers how many litres a minute are used.

Product innovation and quality manufacturing lie at the heart of Pegler Yorkshire. The company is also renowned for embracing legislative requirements and providing products that are at the forefront of technological developments to reduce water usage.

Pegler Yorkshire brands Francis Pegler and Performa currently offer a number of ranges of taps that reduce flow rates to levels prescribed by Part G of the Building Regulations. Many taps in the ranges already consider water saving by using click-cartridges, where lever resistance offers the user two or three levels of reduced flow rate. Current eco-ranges, including Strata by Francis Pegler, also reduce water flow rates through design.

The Performa brand by Pegler Yorkshire has long been associated with specialist technical taps designed to limit water usage, this includes sensor technologies, and self-closing taps, both of which are already widely used in commercial applications.

Key flow rates (litres per minute)

0.2 L/Min

Tested at 0.2 bar designed for low pressure rating

3.0 L/Min

Tested at 3 bar designed for high pressure rating

PERFECTA

THE SYSTEM BEHIND THE HOTTEST NEW BATHROOM STYLES

The Francis Pegler range of (pre-wall installation systems) offers a solution to meet every type of bathroom construction – solid walls, plasterboard or prefabricated – and eliminates all the constraints of floor-standing sanitaryware, thus greatly enhancing perceptions of spaciousness, style, harmony and functional efficiency.

A robust supporting bracket with spare load capacity exceeding the required 400 kg guarantees the high rigidity of the toilet connection to the wall and prevents condensation forming on the surface of the cistern.

The choice of mounting frame modules and flush plates satisfies every conceivable need.

For more information visit
www.pegleryorkshire.co.uk

FRANCIS PEGLER FLUSH PLATES

The valves inside the tank are accessible through the maintenance opening behind the flush plate. The use of installation modules in bathrooms and toilets is getting increasingly more popular. The reason is not only strict compliance with exact connecting measurements for fitting objects, but also the installation speed. The modules represent a whole range of improvements that increase their functionality and reliability.

INSTALLATION

SEE ONLINE INSTRUCTION VIDEO AT WWW.PEGLERYORKSHIRE.CO.UK

ONE-PIECE CISTERN

- 100% pressure control of every component.
- Long life-span.
- Resistant to temperature changes.

ACCESSORIES

- Elegant flush plates designed by renowned designer Barbora Skorpilova.
- Wide range of accessories and spare parts.

FLUSH VALVE

- Quiet, fast and precise.
- The construction is designed to ensure long term functioning, even in the presence of lime scale.

POLYSTYRENE FILLER ENCASING THE CISTERN

- Protects against condensation.
- Improves sound reduction.

FRAME

- Easy to install for one person.

ISOLATION VALVE

- Isolation valve for ease of maintenance.

INSTALLATION SHROUD

- Easy to cut around along the grooves.
- Covers the opening of the module during installation and thus prevents any debris from falling into the cistern.
- Ensures appropriate fitting.

FLUSH PLATE FITTING

- Easy and fast to dismantle.
- Cistern easy to access without the use of tools.

ADJUSTABLE FLUSH

- Cistern is pre-set for 4/2.6 litre dual flush.
- Sliding mechanism adjusts instantly to 5.5/3 litre dual flush. (Accessible before and after installation).

INSTALLATION

1. Position and level the frame, mark the holes.

2. Remove the frame, drill holes into the wall, place dowels.

3. Get the frame into the final position and fix it to the wall with screws.

4. Connect to in/out water pipes, put on blind covers and fix the WC.

DOMESTIC & COMMERCIAL UTILITY TAPS

COMBINED EXPERTISE, HELPING YOU CONTROL

INTRODUCTION

Performa taps, mixers and showers: Long-term solutions you can rely on at every turn.

From leading the market in public utilities to addressing the crucial need to save water at every opportunity, Pegler Yorkshire's comprehensive and innovative range of Performa solutions – developed and refined over many years – continues to evolve today and is consequently unrivalled for its sheer scope, quality and proven long-life reliability and performance.

Wherever there's a need, Performa applies

The Performa satisfies a vast number of tap, mixer and shower applications – from domestic and social housing, to utilities and light commercial, to healthcare and many other multipoint installations.

- ✚ Choice of distinctly individual and cosmetically-appealing styles including bathroom and kitchen taps and mixers.
- ✚ Manual and electronic self-closing basin taps and mixers.
- ✚ TMV3-approved thermostatic controls.
- ✚ Shower heads, basin spouts, accessories and more.

Designed and engineered to perform better and last longer

- ✚ Superlative quality built in at every stage ensures exceptional whole-life value for money.
- ✚ Quality testing, compliance and approvals are in line with exacting standards such as ISO9227 service condition 2, BS1010, BS5412, TMV2 and TMV3 as appropriate.
- ✚ Robust construction carries 5-year guarantee and deters vandalism.

Practical Performa benefits all round:

- ✚ Easy, user-friendly operation.
- ✚ Safe and simple installation.
- ✚ Options such as traditional washered valve or ceramic disc technology (for low-pressure operation and high-flow performance).
- ✚ Easy to service and maintain.
- ✚ Spares readily available.

The Building Regulations Part G and The Code for Sustainable Homes

Part G of the Building Regulations covers sanitation, hot water safety and efficiency in new build properties and major changes of use of an existing building in England and Wales. Pegler Yorkshire can help to meet the requirements of the regulations by providing products for sections G2 Water efficiency and G3 Hot water supply and systems.

Adding care

Pegler Yorkshire has worked closely with specifiers and contractors in the housing, healthcare and commercial sectors for more than 80 years – experience which shows in these vital areas of expertise:

- ✚ Preventing cross-contamination: non-touch Performa taps greatly reduce the risk.
- ✚ Anti-scalding: TMV3-approved thermostatic valves offer increased protection against any sudden sharp rise in hot water temperature.
- ✚ Conserving water by means of Performa self-closing flow controls – now being used in a diverse and ever-growing number of applications.
- ✚ Easy operation: for people with restricted hand movement, Performa innovations include knee- or elbow-operated lever flow controls and lever-action basin taps.

Water efficiency

Section G2 states that reasonable provision must be made for the installation of fittings and fixed appliances that use water efficiently for the prevention of undue water consumption.

The Pegler Yorkshire Performa range includes a choice of Eco basin taps and mixers and water saving regulators for high and low pressure systems which enable flow rates to be restricted to 2, 4 or 6 litres a minute. Performa products can also be used to help meet the performance targets of Part G and The Code for Sustainable Homes in relation to taps, baths and showers.

HEALTHCARE SOLUTIONS

CONNECT  CONTROL

COMBINED EXPERTISE, HELPING YOU CONTROL

Choosing the best possible solution for the job is critical in the healthcare sector – particularly where the issues concerned are as important as anti-bacterial protection and helping to prevent scalding and cross-contamination.

PRODUCT RANGE

Healthcare	134-137
Anti-Scald Thermostatic Mixing Valves	138-140

THE COMPLETE RANGE

CONNECT  CONTROL

UNRIVALLED EXPERIENCE AND EXPERTISE

Pegler Yorkshire has worked closely with the healthcare sector for more than 80 years and the comprehensive and innovative range of Performa healthcare products has been created and refined by Pegler Yorkshire over this period to meet your very specific needs. It offers many benefits, including:

-  Bacterial infection protection: specialist anti-bacterial products and non-touch taps to help prevent hospital-acquired infections
-  Anti-scalding: TMV3-approved thermostatic mixing valves are proven to offer increased protection against any sudden sharp increase in hot water temperature
-  Conserving water: self-closing flow controls are an increasingly important requirement in the healthcare sector
-  Easy operation: innovations such as electronic and knee or elbow-operated lever flow controls and lever-action basin taps are essential for people with restricted hand movement.

The Performa range of healthcare taps, mixers, showers, thermostatic mixing valves and associated products has been developed to offer the widest possible choice of products which are both practical and aesthetically-pleasing. Performa products are built to last, are easy to service and are backed by extended warranties for complete peace of mind.

The Performa Antimicrobial Copper range is the first of its kind in the UK and takes infection prevention to a new level with this innovative, potentially life-saving material.

ENGINEERED TO PERFORM BETTER AND LAST LONGER

Every product in the Performa range is designed and manufactured to exacting standards to guarantee outstanding quality, long-life reliability and whole-life value for money. Where appropriate, further assurances are guaranteed by testing, compliance and approvals with standards such as BS EN248 service condition 2, BS 1010, BS 5412 and TMV3 as appropriate.

Performa products have long been renowned for exceptional quality, reliability and performance, simply because these qualities are built-in and painstakingly applied through every stage of the product life cycle, from concept to the end of the production line. Paramount to these qualities is the critical choice of materials.

TMVA SCHEME

As part of the TMVA membership we offer a comprehensive range of thermostatic products approved under the BuildCert scheme.

-  **TMV2 Scheme** – certifies Type 2 Thermostatic Mixing Valves for the domestic market. For use in hot water systems in domestic premises.

-  **TMV3 Scheme** – certifies Type 3 Thermostatic Mixing Valves manufactured to meet the highest specification required by the NHS Estates DO8 standard for Mixing Valves within healthcare premises in the United Kingdom.

ANTI-SCALD THERMOSTATIC MIXING VALVES INTRODUCTION

Choosing the best possible solution for the job is critical where the issue concerned is as important as helping to prevent scalding.

Offering full compliance with all Regulations and Best Practice, the comprehensive Pegler range of anti-scald Thermostatic Mixing Valves (TMVs) combines high quality manufacture and top-of-the range performance with remarkable ease of installation and servicing. Pegler anti-scald TMVs are the ideal choice for eliminating the risk of scalding in healthcare, public and educational buildings, commercial and domestic projects. They are WRAS approved as suitable for sinks, wash basins, baths, bidets, single point showers, hair wash sprays and domestic hot water systems.

Independently tested and approved to BuildCert TMV3 and TMV2 schemes gives added security when specifying.

FEATURES

- ✚ Simplicity of installation and servicing
- ✚ Sensibly priced to offer best value
- ✚ BuildCert TMV3 and TMV2 scheme third party approvals in one model
- ✚ Compliant with NHS Model Engineering Specification DO8
- ✚ Choice of standard, easy to service union connections or 90° angle valve combination
- ✚ Factory pre-set but easy to adjust to suit site conditions
- ✚ Complete with internal strainers and non-return valves
- ✚ Laser-etched bar code on body (below) provides unique record of product traceability

- ✚ Inlets and outlets protected by plastic caps to prevent contamination of the element and the valve lubricant
- ✚ Screw-fixed, tamper-proof cap to prevent unauthorised adjustment of the valve temperature setting
- ✚ Each carton is security sealed to avoid stock contamination and provide better audit control
- ✚ Chrome finish for easy cleaning
- ✚ Meets requirements of Building Regulations amendment April 2010, Part G, Section G3

PRODUCT OVERVIEW

CONNECT + CONTROL

PEG402 / PEG402UA / PEG402UAX ANTI-SCALD THERMOSTATIC MIXING VALVES

Pegler anti-scald mixing valves are designed to eliminate the risk of scalding and are suitable for use in a wide range of public, health care, social, commercial and domestic applications.

FEATURES

- ✚ Suitable for sinks, wash basins, bath, bidets, single point showers, hair wash sprays and domestic hot water systems
- ✚ Simple to install and service
- ✚ Temperature pre-set to 43°C, but easily adjustable on site
- ✚ WRAS approved for a wide variety of uses
- ✚ Complies with NHS Model Engineering Specification DO8
- ✚ Choice of standard, easy to service union connections or 90° angle valve combination
- ✚ 15mm and 22mm sizes.

1. General

In these conditions, reference to the Company shall mean Pegler Yorkshire. All quotations are made and all orders are accepted subject to these conditions. All other terms, conditions or warranties whatsoever are excluded from the contract or any variation thereof unless expressly accepted by the Company in writing. In the event of a conflict between these conditions and the specific terms and conditions of quotation then the latter shall prevail.

2. Electronic Trading

- a) If the Company and Buyer agree that electronic trading between them shall be a basis for order processing and invoicing then the Standard Interchange Agreement (1st Edition October 1989) of the EDI Association shall be incorporated into the contract by reference subject to these conditions.
- b) Electronic orders shall be valid if all the information agreed between the Buyer and the Company as being required is properly set out in the agreed format and the order is transmitted by the Buyer to the Company by reference to the correct identification code and is received by the Company when collecting its electronic mail from the relevant system.
- c) Each valid electronic order will be deemed accepted by the Company unless the Company communicates rejection of the order to the Buyer by electronic or other means (including telephone) within 24 hours of receipt. Acceptance of an order shall constitute a contract for sale and purchase to which these conditions and the Standard Interchange Agreement shall prevail.
- d) If the Company and the Buyer agree that invoicing may be done by electronic mail, then payment will be due 30 days after the date of electronic invoice unless agreed otherwise.

3. Delivery

- a) Any date for delivery named by the Company is an estimate only and in no circumstances shall the failure of the Company to deliver on or before the named date either entitle the Buyer to rescind or terminate the contract or make the Company liable in any way for the consequences of any delay.
- b) Tube/Pipe orders for straight lengths are sent on specialist carrier, and will be delivered separately to your normal orders. Tube/Pipe Orders are subject to carriage charges priced on application.

4. Export

Unless specifically stated otherwise in these conditions all trade terms not specifically covered by these conditions shall be interpreted in accordance with INCOTERMS current on the date of that order.

5. Warranty and Defective Goods

- a) Save as otherwise provided by the other conditions of these Conditions, sections 12 to 15 of the Sale of Goods Act 1979 are to be implied into this contract.
- b) The goods delivered under the Contract shall, where the Contract includes a specification, comply with the specification or, if there is no specification, shall be of normal industrial quality.
- c) The Buyer does not rely on any statement or representations other than those which have been made in writing by the Company.
- d) The Buyer must give the Company immediate written notice of any defect in the goods. Such goods shall be returned to the Company and if proved to have been defective at delivery as a result of faulty materials or workmanship, the Company shall at its option replace or repair such goods. Defects in quality or dimension in any delivery shall not be ground for cancellation of the remainder of the order.

- e) Save for any liability for death or personal injury caused by the Company's negligence, the Company's liability in connection with defective goods shall be limited to the repair or supply of a replacement for the defective goods, and the Company shall not be liable for any other loss or damage including, but not limited to loss of profit, labour costs, damage to property, wasted expenditure or cost of mitigation.

6. Data and Technical Information

The information contained in the advertising sales and technical literature issued by the Company may be relied upon to be accurate in the exact circumstances in which it is expressed. Any illustrations, performance details, examples of illustrations and methods of assembly and all other technical data in such literature are based on experience and upon trials under test conditions and are provided for general guidance only.

7. Claims For Damage, Shortage or Loss

No claim for damage in transit or shortage of delivery can be accepted unless, a separate notice in writing is given to the carrier concerned and to the Company within three days of receipt of the goods, followed by a complete claim in writing within five days of receipt of the goods. No claim for loss of goods in transit can be accepted unless a separate notice in writing is given to the carrier concerned and to the Company, and a complete claim in writing made within 21 days of the date of consignment. Where goods are accepted from the carrier concerned without being checked, the delivery book of the carrier must be signed "not examined". If a complaint is not made to the Company as herein provided, the products shall be deemed to be in all respects in accordance with the Contract, and the Buyer shall be bound to pay for the same accordingly.

8. Suspension of Deliveries

- a) Deliveries may be wholly or partially suspended by the company in the event of:-
 - i. Stoppage, delay or interruption caused to the business of the Company as a result of strikes, lockouts, trade disputes, break down, accident or any cause whatsoever beyond the reasonable control of the Company.
 - ii. Any default by the Buyer in making payment of any amounts owed to the Company under this and any other contracts between them.
- b) In the event of any hostilities (whether war is declared or not) in which Great Britain is involved, or in the event of national emergency, or if the Company's works should become either directly or indirectly engaged on Government orders as to prevent or delay work on other orders, the Company shall be entitled at any time, on notice to the Buyer, to make partial deliveries only or to determine the contract without prejudice in any case to rights accrued in respect of deliveries already made.

9. Determination of Contract

The Company shall have the right forthwith to determine this and/or any other Contract between the Buyer and the Company by written notice to the Buyer's last known address (without prejudice to any claim or right the Company might otherwise make or exercise) in any of the following events:-

- a) If the Buyer shall make default in or commit a breach of any contract with the Company; or
- b) If any distress or execution shall be levied upon the Buyer's property or assets; or

9. Determination of Contract

- c) If the Buyer shall make or offer to make any arrangements or composition with creditors, or commit any act of bankruptcy or become insolvent; or
- d) If any petition or receiving order in bankruptcy shall be presented or made against him; or
- e) If the buyer shall be a limited Company and become subject of any resolution or petition for winding up or administration; or
- f) If a receiver or manager of the Buyer's undertaking, property or assets or any part thereof shall be appointed.

10. Indemnity

The Buyer will indemnify the Company against all damages, penalties, costs and expenses to which the Company may become liable as a result of work done to the Buyer's instructions or which infringe any letters, patent or registered design or copyright or any other third party intellectual property rights.

11. Prices

The price payable for the goods shall unless otherwise agreed be the Company's list price current at the date of despatch. Such prices are inclusive of delivery to the Buyer's UK mainland delivery point but costs of delivery to any other destinations will be charged to the Buyer.

12. Risk and Title

- a) Risk shall pass to the Buyer so that the Buyer is responsible for all loss, damage or deterioration to the goods:
 - i. If the Company delivers the goods by its own transport at the time when the goods or a relevant part thereof arrive at the place of delivery; or
 - ii. In all other circumstances at the time when the goods, or a relevant part thereof leave the premises of the Company whether or not the Company arranges transport and (without prejudice to clause 7) where the goods are delivered by carrier, any claims for loss or damage in transit must be made by the Buyer against the carrier in accordance with the carrier's conditions.
- b) Title to the goods supplied under the contract shall only pass to the Buyer when payment in full for all goods supplied under this and all other contracts between the Company and the Buyer has been received by the Company. The Company reserves the immediate right to possession of and at any time may recover all goods in respect of which title has not passed to the Buyer; the Company is hereby authorised by the Buyer to enter upon any premises where such goods are held by or on behalf of the Buyer and recover possession thereof.
- c) Until title to goods has been passed to the Buyer pursuant to these conditions it shall possess the goods as a Bailee at will of the Company, and the Buyer shall not be entitled to sell or otherwise deal in goods in respect of which title has not passed to the Buyer. If the Buyer acts in breach of these conditions then without prejudice to any other rights of the Company the Buyer shall have a fiduciary duty to account to the Company for the proceeds of any sale save to the extent that any such proceeds exceed the amounts owed to the Company under this and all other contracts between the Company and the Buyer.

13. Cancellation

Cancellation will only be accepted by the Company on condition that all costs and expenses incurred by the Company up to the time of cancellation and all loss of profits and other loss or damage suffered by the Company as a result of such cancellation will be paid forthwith by the Buyer to the Company.

14. Payment of Accounts

- a) Unless otherwise agreed by the Company in writing, payment shall be settled in full by the last working day of the month following the month in which the goods were despatched, or would have been despatched save for postponement otherwise than due to default on the part of the Company. The Company shall be entitled to submit its invoice on the same day as its delivery advice note or at any time thereafter, save that where delivery has been postponed at the request of or the default of the Buyer, then the Company may submit its invoice at any time after the goods are ready for delivery or would have been ready in the ordinary course but for the request or default as aforesaid.
- b) The Company reserves the right to charge interest at a rate up to 5% above Lloyds Bank Base Lending Rate ruling at the time payment is due if payment is not made in accordance with the terms agreed at the time the order is accepted.

15. VAT

The prices are quoted both inclusive and exclusive of VAT, if applicable, and the VAT has been applied at the rate of 20%.

16. Consumer Protection Act

In circumstances where the Company supplies parts or goods to the Buyer for incorporation with, or use ancillary to, any composite goods to be produced, manufactured, processed or supplied by the Buyer then:

- a) The Buyer shall forthwith on demand produce for inspection by the Company copies of all written instructions, information and warnings in relation to the said composite goods, provided nevertheless that such inspection or right to inspect shall not of itself constitute acceptance or approval on the part of the Company of such instructions, information, or warnings; and
- b) The Buyer shall indemnify, reimburse and compensate the Company for all losses and damages (including costs, expenses and charges for legal actions in which the Company may be involved) that the Company may incur in the event that any claim or claims are made against the Company pursuant to the Act relating to the said composite goods of the Buyer or parts or goods supplied hereunder in circumstances in which the parts or goods supplied by the Company was either:
 - i. Not the defective part of the said composite goods; or
 - ii. Was only rendered the defective part or became defective goods by reason of actions or omission of the Buyer; or
 - iii. Was only rendered the defective part or became defective goods by reason of instructions or warnings given or omitted by the Buyer or other supplier of the said composite goods supplied here under.
- c) For the purposes of this condition the word "defective" shall be interpreted in accordance with the definition contained in the Act and this condition shall mutatis mutandis apply in relation to equivalent legislation of other states as it applies in relation to the Act.

17. Law and Jurisdiction

This contract shall be governed and construed according to the Law of England and the parties hereby agree to submit to the exclusive jurisdiction of the English courts.

CONNECT + CONTROL

Pegler Yorkshire
